Overview

Vaginal microbiome

Product number: MV1500

Price

€245.00

Prices incl. VAT plus shipping costs

Description

Why test the vaginal flora?

The vaginal flora is a complex ecosystem of bacteria and microorganisms that naturally occurs in the vagina and ensures a balanced environment. Such a balance is essential, as it protects against potentially harmful bacteria and fungi and reduces the risk of infections.

Medivere's vaginal microbiome

Medivere's vaginal microbiome examines the vaginal flora using PCR testing. The test can be carried out easily and conveniently from home and saves a visit to the doctor. The results can be accessed online at any time and are simple and easy to read.

The test kit includes:

- 1 instruction for sample collection
- 1 instruction for accessing results
- 1 sample submission form
- 1 guarantee certificate
- 1 pH measurement swab
- 1 vaginal swab set (swab and swab tube)
- 1 label for recording the pH value
- 1 shipping container for the swab tube
- 1 shipping envelope

How does the ordering process work?

After your order, the desired test package will be sent to you with detailed instructions. You place your sample in a sample container, send it in a prepared envelope to Medivere's partner laboratory GANZIMMUN Diagnostics GmbH and will receive a report with the assessment of your profile after 5–7 days.
