To 2	€84.99	€669.21 / 1 Kilogramm
From 3	€63.75	€501.97 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

At work, at university or simply in a hectic everyday life.

Sometimes there isn't enough time to take care of a balanced diet with important minerals and trace elements. Our solution: Daily Minerals. With the small capsules you support a healthy lifestyle every day, optimise your diet and replenish losses – e.g. through sweating during physical exertion. Bottled in Miron glass (high-quality biophotonic glass packaging for natural products).
Our body depends on minerals and trace elements such as magnesium, potassium, calcium, iron as well as zinc and

iodine. They play an important role in metabolic processes, support muscles and the nervous system and help with bone formation and hormone production. In addition, Daily Minerals contain the high-quality combination of turmeric, ginger, coriander, shiitake and reishi as well as additional extracts from green tea and blueberries, which are rich in antioxidants.

Why we constantly sweat

Pearls of sweat on the face. They can appear when we are hot, when we are anxious or when we exert ourselves, for example during sport. But we also sweat at rest and at moderate temperatures. We can lose up to a litre of sweat per day this way – even without exercise. Two to three million sweat glands located in our skin help us with this. By sweating, our body regulates its temperature.

What is sweat actually made of? The answer: mainly water and the minerals contained in it. These include sodium, potassium, calcium and magnesium, but also zinc and iodine.

Highly effective vitality complex

This special combination of the potent spices turmeric, ginger, coriander and black pepper as well as the medicinal mushrooms shiitake, reishi and cordyceps offers an ideal complementary effect.

Nutritional information

Micronutrients	**per daily portion 5 capsules**
Vitamin C	71 mg (89 %*)
Potassium	498 mg (25 %*)
Iodine	75 µg (50 %*)
Calcium	470 mg (59 %*)
Molybdenum	40 µg (80 %*)
