Overview

Intestinal Health Check Plus

Product number: MV2119

Price

€174.00

Prices incl. VAT plus shipping costs

Description

The Gut Health Check Plus builds on the “Florastatus”

The Gut Health Check Plus includes a microbiological analysis of aerobic and anaerobic indicator organisms, moulds, yeasts (such as Candida albicans and Candida spp.) as well as a quantitative examination for digestive residues. The following substances are also analysed: α-1-Antitrypsin, calprotectin, bile acids, pancreatic elastase, secretory IgA and zonulin.

The results form the basis for an individually tailored therapy with pro- or prebiotics to restore a healthy gut flora.

The evaluation provides the foundation for a customised therapy, which should only be carried out after consultation with a doctor or therapist.

The test set includes:

- 1 sample collection guide
- 1 guide to accessing results
- 1 sample submission form
- 1 warranty certificate
- 1 sample container with label in the shipping container
- 1 stool collection device
- 1 shipping bag

How does the ordering process work?

After you place your order, the requested test package will be sent to you with detailed instructions. You place your sample in a sample container, send it in a prepared envelope to Medivere's partner laboratory GANZIMMUN Diagnostics GmbH and receive a report with the assessment of your profile after 5-7 days.
