Description

Vitamin D – the sunshine vitamin

Vitamin D3 is also called the sunshine vitamin because it requires the sun's UV-B rays to be produced. However, vitamin D3 can also be obtained through the diet. It is particularly found in fatty fish varieties such as salmon or herring. If you spend too little time outdoors during the winter or follow a vegetarian/vegan diet, the body's production of vitamin D3 can decrease. It is therefore advisable to keep an eye on your vitamin D3 status. A good

option here is the Vitamin D test from Medivere.

Natura Felix Vitamin D3 10,000 IU - High-dosage and additive-free

D3 is the natural form of vitamin D and can therefore be utilised optimally. IU stands for the international unit and indicates the concentration. Because of its high dosage, one capsule per week is sufficient!
As vitamin D is fat-soluble, the body can store this high single dose and use it up over the course of the week.

Nutritional properties

- Vitamin D contributes to the normal absorption/utilisation of calcium and phosphorus.
- Vitamin D contributes to maintaining a normal blood calcium level.
- Vitamin D contributes to the maintenance of normal bones.
- Vitamin D contributes to the maintenance of normal muscle function.
- Vitamin D contributes to the maintenance of normal teeth.
- Vitamin D contributes to the normal function of the immune system. Vitamin D has a role in cell division.

Nutrition declaration

Micronutrients	per daily portion 1/7 capsule (one per week)
Vitamin D	35.7 µg (714%*)

*Reference intake according to Regulation (EU) No. 1169/2011

Ingredients

Cholecalciferol, cellulose (filler), hydroxypropylmethylcellulose (veg. capsule).

Recommended intake

1 EMBO-CAPS® every 7 days with food, with a meal that should contain some fat.

Manufacturer's note

During pregnancy or breastfeeding only take after consultation with your healthcare professional. Do not use in hypercalcaemia (elevated calcium concentrations in the blood) and hypercalciuria (elevated calcium concentrations in the urine).
