Description

St. Helia Supervitamin K2 with bioactive menaquinone (MK-7)

St. Helia Vitamin K2 is characterised by its very high bioavailability and is also completely vegan. The menaquinone MK-7 contained is a form of vitamin K2 that is particularly well absorbed by the body. This effect is further enhanced by the combination with vitamin A.

- 100% active, usable vitamin K2 (MK-7)

- Also contains vitamin A in the form of carotene and vitamin E from tocopherols and tocotrienols.
- Only 3 drops daily provide a supply for 3–4 months.

Vitamin K2 is ideal to use in combination with vitamin D3 when it comes to supporting bone growth. These two products from St. Helia are of extremely good quality, as they are made from pure natural raw materials.

Trans isomers – why are they important?
Even within menaquinone MK-7 there are differences in quality. The question is whether MK with cis-trans isomers or with all-trans isomers was used as an ingredient. These isomers are molecules that differ in their double bonds – and thus in their biological activity – to a significant extent.

- All-trans isomers can activate the proteins osteocalcin and MGP as co-factors.
- Cis-trans isomers are biologically inactive. They cannot be utilised by the body.

St. Helia Supervitamin K2 contains exclusively the pure – biologically active – menaquinone MK-7 in the high-quality all-trans form.

Nutritional properties

- Vitamin K2 supports healthy bones.
- Vitamin K2 contributes to normal blood clotting.
- Vitamin A contributes to normal iron metabolism and to the normal function of the immune system.
- Vitamin A contributes to the maintenance of normal mucous membranes and normal skin.
- Vitamin A contributes to the maintenance of normal vision and has a role in cell differentiation.
- Vitamin A contributes to the maintenance of normal vision and has a role in cell differentiation.

Nutritional information

Micronutrients	per daily portion (3 drops)
Vitamin K	90 µg (120 %*)

*Reference intake according to Regulation (EU) No. 1169/2011

Ingredients

Cold-pressed hemp oil, vitamin K2 (menaquinone MK-7 all-trans), carotene oil (Dunaliella salina alga, contains carotenoids 1.7 mg/ml), full-spectrum vitamin E extract from vegetable oil (mixed tocopherols and tocotrienols), sea buckthorn fruit oil, spice plant extracts.

Recommended use

Allow 3 drops to dissolve in the mouth daily.

Warning

People taking anticoagulant medication should consult a doctor before consuming vitamin-K-containing supplements.

Storage instructions

Store cool, dry and protected from light (do not refrigerate).
