## Description

### CurcuRouge®: High-quality turmeric extract for an active and demanding everyday life

Turmeric has been known for centuries for its versatile properties and is also very popular in modern nutrition. CurcuRouge® is an innovative turmeric extract with **high bioavailability**, high purity and scientifically investigated properties. The **patented clean-label process** stands for modern manufacturing without unnecessary additives.

## What makes CurcuRouge® special?

**1. Highly concentrated curcuminoids**
CurcuRouge® contains at least **40% curcuminoids**, the natural constituents of the turmeric plant. They are obtained from sustainably cultivated *Curcuma longa* through a gentle, solvent-free process.

**2. 93-fold higher bioavailability**
CurcuRouge® uses an innovative manufacturing process in which **crystalline curcumin is converted into an amorphous structure**. This significantly improves solubility and uptake. A polymer matrix made from non-GMO modified maize starch provides stability – completely free of polysorbates.

**3. Patented clean-label process**
Manufacture takes place without artificial additives, allergens or genetic modification. The result is a high-quality turmeric extract with a clear and deliberately selected formula.

**4. Scientifically based**
CurcuRouge® is based on **13 years of research** led by Dr Hashimoto in Japan. The bioavailability and safety of the extract have been investigated in **15 scientific publications and 50 clinical studies**.

## Who is CurcuRouge® suitable for?

CurcuRouge® is ideal for people who:

- wish to support an active and demanding daily life with a targeted food supplement,
- place value on purity and selected ingredients,
- want to take curcuminoids in a particularly bioavailable form,
- prefer a turmeric product that has been scientifically investigated.

## Why CurcuRouge®?

The combination of highly concentrated curcuminoids, innovative technology and a patented clean-label process makes CurcuRouge® a modern turmeric extract. The **93-fold higher bioavailability** enables particularly efficient uptake – without piperine as a bioavailability enhancer.

## In short

CurcuRouge® combines **40% curcuminoids, high bioavailability and a patented clean-label process** in a high-quality turmeric extract. A modern formula for anyone who values quality, purity and scientifically investigated properties in a food supplement.

## Key ingredients

| **Active ingredients*** | **per daily portion 1 capsule** |
|---|---|
| curcuRouge® | 450 mg |
| of which at least 40% curcuminoids | 180 mg |

* No reference intake specified according to the Food Information Regulation (LMIV)

**Ingredients**

curcuRouge®, Hydroxypropylmethylcellulose (capsule shell).
