PuraVita PEA 400 mg contains **pure Palmitoylethanolamide (PEA)** in a clearly defined formulation. Each vegan capsule delivers **400 mg PEA**, the recommended daily dose of three capsules in total being **1,200 mg**.

PEA is a **naturally occurring fatty acid amide** that is found in the human body as well as in plants, animals and various foods.

Benefits at a glance

- **400 mg pure PEA** per vegan capsule
- **1,200 mg PEA** with 3 capsules daily
- Naturally occurring **fatty acid amide**
- Endogenous, fat-like substance
- **Purist formulation** with only two ingredients
- Convenient capsule form for easy daily consumption
- **Vegan**

What is PEA?

Palmitoylethanolamide (PEA) belongs to the group of fatty acid amides. The defined lipid compound is neither a vitamin nor a mineral or plant extract.

PEA is produced by the human body itself and naturally occurs in small amounts, among other things, in **eggs, peanuts, soy, meat and fish**.

As early as **1957** PEA was described scientifically. Since then the substance has been the subject of numerous scientific publications.

PEA as a single substance

While many dietary supplements combine various active ingredients, PuraVita PEA focuses on **a clearly defined substance**.

The formulation consists of **Palmitoylethanolamide and a vegan capsule shell**. This keeps the composition and dosage particularly clear and traceable.

Clearly dosed: 400 mg PEA

Each capsule contains **400 mg Palmitoylethanolamide**. With three capsules daily this corresponds to a daily dose of **1,200 mg PEA**.

Scientific background

PEA has been the subject of scientific research for decades. Publications address, among other things, the natural occurrence, the chemical structure and the biological classification of the substance.

Nobel laureate **Rita Levi-Montalcini** was also involved in a significant publication from this field of research. However, the 1986 Nobel Prize was **not awarded for PEA**, but for the discovery of growth factors.

As there are **no authorised EU health claims** for Palmitoylethanolamide, product communication is deliberately factual – focusing on **purity, dosage, composition and scientific context**, without claims of cure or effect.

Who is PuraVita PEA 400 mg suitable for?

Rechtliches:
Amtsgericht Dresden
USt-ID-Nr.: DE352285297

PuraVita PEA 400 mg is suitable for **adults** who wish to supplement Palmitoylethanolamide specifically and value a **vegan, clearly dosed and purist formulation**.

Pure PEA. Clear dosing. Purist formulation.

Active ingredients

Active substances*	per daily portion 3 capsules
Palmitoylethanolamide	1200 mg

* No reference intake value specified according to LMIV

Ingredients

Palmitoylethanolamide, coating agent: Hydroxypropylmethylcellulose.

Recommended intake

Take 1 capsule three times daily with sufficient liquid at mealtimes.

Storage instructions

Store in a cool, dry place protected from light (not in the refrigerator).

Legal notice

The recommended daily intake should not be exceeded. Dietary supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.

Product information

Application:	Relaxation, Brain, Cell protection
Dosage form:	In vegan capsules.
Quality:	Free from magnesium stearate, Gluten-free, Lactose-free, Vegan
Product type:	Dietary supplements
