Overview

Vitamin E drops, 50 ml

Product number: EV0889

Price

Quantity	Unit price	Base price
To 1	€19.99	€399.80 / 1 Kilogramm
To 4	€19.00	€380.00 / 1 Kilogramm
From 5	€18.00	€360.00 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

What is vitamin E?

Vitamin E is a collective term for various natural and synthetic compounds. The vitamin E drops contain natural D-alpha-tocopherol – a form that also occurs in foods and can be well utilised by the body.

As a fat-soluble antioxidant, vitamin E helps protect cell membranes from oxidative influences. It assists in intercepting reactive oxygen species that can affect lipids and cellular structures. This protective function is particularly relevant in fat-rich tissues, such as the nervous system and cell membranes.

What makes the vitamin E drops special?

Natural D-alpha-tocopherol

The formulation relies on natural rather than synthetically produced D-alpha-tocopherol. This form of vitamin E also occurs in nature and can be readily recognised and used by the body.

Filled in amber glass to protect from light

Vitamin E is sensitive to light. The amber glass bottle helps protect the contents from light exposure and oxidation and preserves its quality.

Liquid form instead of capsules

The drops offer a convenient alternative to capsules or powders. Since vitamin E is fat-soluble, it is already present in an oil-based carrier.

Over 400 days' supply

The high yield allows for a usage period of more than 400 days. This reduces the frequency of repurchasing and can save packaging material.

Dissolved in high-quality MCT oil

The contained D-alpha-tocopherol is already dissolved in MCT oil derived from coconuts. The oil-based formulation is aligned with the fat-soluble properties of vitamin E.

Simplified formulation without unnecessary additives

The formulation deliberately avoids colourants, artificial excipients and synthetic antioxidant blends.

Plant-based raw material source

The D-alpha-tocopherol is derived from sunflower seeds. Petrochemical starting materials are avoided.

Dosage according to individual needs

Thanks to the drop form, the amount can be adjusted flexibly. Unlike capsules with a fixed active ingredient content, it allows individual dosing.

Nutritional information

Micronutrients	per daily serving 4 drops
Vitamin E	67 mg α-TE** (558 %*)

*Reference intake according to Regulation (EU) No. 1169/2011
**Information on vitamin E content (α-TE = Total alpha-tocopherol equivalents)

Ingredients

D-Alpha-Tocopherol (vitamin E), MCT oil (MCT = medium-chain triglycerides from coconut oil).

Recommended intake

Take 4 drops daily undiluted.

Storage instructions

Store in a cool, dry, light-protected place (not in the refrigerator).

Legal notice

The recommended daily intake must not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.

Product information

Application:	Anti-ageing
Dosage form:	As an oil with a dosing pipette.
Micronutrients:	Vitamin E
Plants:	Coconut, Sunflower
Quality:	Free from magnesium stearate, Gluten-free, Lactose-free, Vegan
