Description

puraVita Vitamin D3 + K2 vegan, highly pure, plant-based and without additives

puraVita Vitamin D3 + K2 vegan combines plant-based vitamin D3 from lichens with highly pure **K2VITAL® all-trans MK7** in high-quality MCT coconut oil. The formulation with only three ingredients is ideal for anyone who values purity, quality and a vegan dietary supplement.

Vitamin D contributes to the normal absorption and utilisation of calcium, to the maintenance of normal bones and teeth, as well as to normal muscle function and immune function. Vitamin K supports the maintenance of normal bones and normal blood clotting.

Manufacture and composition

The vegan vitamin D3 is obtained from natural lichens – without animal lanolin. Vitamin K2 is derived from bacterial fermentation and is present as **all-trans MK7 with at least 99.7% purity**.

MCT oil from coconut serves as the carrier oil for the fat-soluble vitamins. The formulation omits unnecessary additives such as synthetic vitamin E, ascorbyl palmitate, silicon dioxide and modified starch.

Composition per drop:

- **Vitamin D3:** 2,500 IU (62.5 µg)
- **Vitamin K2:** 40 µg, K2VITAL® all-trans MK7
- **Carrier oil:** MCT oil from coconut

Special quality features

- **100% vegan:** Vitamin D3 from lichens, without animal components
- **Highly pure K2VITAL®:** At least 99.7% all-trans isomers
- **Only three ingredients:** Vitamin D3, vitamin K2 and MCT oil
- **Precision dropper:** For easy dosing
- **Without unnecessary additives:** Free from colourings, preservatives and flavourings
- **Convenient oil form:** Ideal for people who do not want to take capsules or tablets

For bones, muscles and the immune system

Vitamin D3 and K2 complement each other in their functions. Vitamin D contributes to normal calcium absorption, to the maintenance of normal bones and teeth, to normal muscle function and to normal immune function. Vitamin K contributes to the maintenance of normal bones and to normal blood clotting.

The combination is particularly suitable for people who wish to consciously supplement their nutrient supply – including vegans, people with little sun exposure and those who are physically active.

How is the vitamin D3 obtained?

Rechtliches:
Amtsgericht Dresden
USt-ID-Nr.: DE352285297

It is derived from natural lichens and is a plant-based alternative to vitamin D3 from lanolin.

What does all-trans MK7 mean?

All-trans MK7 is a form of vitamin K2. K2VITAL® is characterised by a purity of at least 99.7% all-trans isomers.

Why MCT oil?

The coconut MCT oil serves as the carrier for the fat-soluble vitamins and enables easy administration as drops.

Conclusion

puraVita Vitamin D3 + K2 vegan combines plant-based vitamin D3, highly pure K2VITAL® and high-quality MCT coconut oil in a minimalist formulation. Three ingredients, no unnecessary additives and a convenient drop format make it the ideal choice for anyone who prioritises vegan origin and high quality in dietary supplements.

Nutrition declaration

Micronutrients	per daily portion 0.5 drops**
Vitamin D	31.25 µg (625%*)
Vitamin K	20 µg (26.7 %*)

*Reference intake according to Regulation (EU) No. 1169/2011
** Vitamin D + K are fat-soluble, therefore they are immediately distributed and stored in the body. It is therefore irrelevant whether one takes the amount of half a drop daily, which is technically hardly feasible, or 1 drop every 2 days as recommended!

Ingredients

MCT oil*, vitamin D3 (cholecalciferol)*, vitamin K2 (MK7 >99.7% all-trans, K2VITAL®)*
* of plant origin

Recommended use

Take 1 drop every 2 days with a meal.

Storage instructions

Store cool, dry and protected from light (do not refrigerate).

Legal information

The recommended daily intake should not be exceeded. Dietary supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.
