Description

Broccoli and pomegranate extract with nasturtium

Sulforaphane is a phytochemical found only in certain types of vegetables. It is particularly abundant in broccoli and certain types of cress. Sulforaphane has scientifically proven anticarcinogenic effects. Equally fascinating are the

effects of sulforaphane on other health issues. Sulforaphane is used not only therapeutically but is also recommended as a preventive measure to stay fit and to strengthen the immune system's defence.

Like broccoli, nasturtium contains so-called mustard oils. The effectiveness of nasturtium (Tropaeolum) is based on several mechanisms of action: on the one hand, a direct antibacterial, antiviral and fungistatic effect due to glucosinolates, which release isothiocyanates (mustard oils). The mustard oils are already fully absorbed in the small intestine, so far neither resistance development nor damage to the body's own intestinal flora has been observed. On the other hand, bacterial toxins are inhibited or inactivated during their synthesis, and the human organism is generally strengthened in its immune defence by a nonspecific irritant effect.

Cruciferous vegetables such as broccoli are associated with antioxidant and cell-protecting properties. EnergyBalance Broccoli Granatum contains a standardised concentration of sulforaphane-glucosinolate extract from broccoli seeds. Sulforaphane-glucosinolate is metabolised by the body into sulforaphane (isothiocyanate), which is a highly active antioxidant. Extensive studies have shown that sulforaphane enhances the activity of the phase 2 detoxifying enzymes and acts as a protector of DNA.

Valuable ingredients

Valuable substances*	per daily serving 2 capsules
Sulforaphane (from glucoraphanin)	30 mg
Polyphenols	250 mg

* No reference intake value is specified according to the Food Information Regulation.

Ingredients

Pomegranate extract, pomegranate juice (Punica granatum), organic maltodextrin, broccoli seed extract (Brassica oleracea italica semen) with 15% sulforaphane-glucosinolates, nasturtium seeds (Tropaeolum semen), plant-based capsule shell made of cellulose (VegeCaps – FairFSA standard).

Recommended intake

Take 2 capsules daily with meals.

Storage instructions

Store in a cool, dry, dark place (do not refrigerate).

Legal information

Do not exceed the recommended daily intake. Dietary supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of small children.
