Overview

Natural iodine 200 mcg, 120 capsules

Product number: PM8952

Price

Quantity	Unit price	Base price
To 1	€17.50	€460.53 / 1 Kilogramm
To 4	€16.60	€436.84 / 1 Kilogramm
From 5	€15.70	€413.16 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Natural iodine from the knotted wrack Ascophyllum

Iodine is vital for our survival because it is required for the production of hormones in the thyroid. These regulate many metabolic processes in our body. Knotted wrack is particularly suitable for ensuring an adequate iodine supply.

Improved formula 2026

The product now contains 200 µ instead of 300 µg as previously, but there are more capsules in the jar and the price has remained almost the same. So now much finer dosing is possible!

The naturally high iodine content

- supports the normal production of thyroid hormones
- contributes to normal thyroid function
- is important for concentration and memory (contributes to normal cognitive function)
- contributes to normal growth in children
- supports the nervous system
- is important for energy metabolism
- supports a healthy complexion

Particularly highly concentrated and high quality

Knotted wrack (Ascophyllum nodosum) is a type of seaweed and is one of the most mineral-rich foods worldwide. It grows from the seabed to the surface with its large brown fronds to capture sunlight. The brown alga is an excellent natural source of iodine and additionally contains many minerals, vitamins and trace elements. Because the naturally composed nutrients support each other in their absorption and effect, the bioavailability of iodine from the brown alga is better than that of pure iodine tablets.
The natural iodine comes from the renowned British company Seagreens® and contains a qualitatively convincing and highly concentrated knotted wrack extract (300 µg iodine). This allows the daily iodine requirement to be met very effectively and completely naturally.

Natura Felix Natural Iodine is very well tolerated because it contains no additives (not even the binder magnesium stearate). The cohesion of the tablets is ensured exclusively by natural substances such as microcrystalline cellulose. The tablets are suitable for allergy sufferers and vegans.

It is particularly important for the formation of the hormones triiodothyronine (T3) and thyroxine (T4) in the thyroid. Together with thyrotropin from the pituitary gland they form the so-called pituitary-thyroid regulatory circuit, which regulates the concentration of the hormones in the blood plasma.
Thyroid hormones control the basal metabolic rate. They regulate the cardiovascular system, blood pressure, the cells' oxygen consumption, body temperature and digestion.

Iodine has an influence on our cognitive functions (logical thinking, memory, concentration) and contributes to normal growth in children.

Compensate iodine deficiency naturally

An adult daily dose of 200 micrograms is recommended. Pregnant women should take 230 µg and breastfeeding women 260 µg of iodine. Smokers also have an increased requirement.
Germany still belongs to the iodine-deficient areas. The southern federal states are particularly affected, where goitre (enlarged thyroid) as a sign of hypothyroidism is quite well known. For this reason, there are numerous products on the market with added iodine (e.g. iodised salt). If this type of iodine supply is not sufficient, for

example with an increased requirement (smokers!) or an iodine-poor diet (vegans!), a dietary supplement with iodine can provide compensation. Preferably in a natural nutrient complex such as in knotted wrack rather than as a single substance.

Nutritional information

Micronutrients	per daily portion 1 capsule
Iodine	200 µg (133 %*)

*Reference intake according to Regulation (EU) No. 1169/2011

Ingredients

Seagreens® Ascophyllum nodosum, hydroxypropylmethylcellulose (veg. capsule).

Recommended intake

1 EMBO-CAPS® daily, with food.

Storage instructions

Store in a cool, dry, dark place (do not refrigerate).

Legal notice

The recommended daily intake should not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.
