Overview

L-Methionine Plus P-5-P, 90 EMBO-CAPS

Product number: PM1085

Price

Quantity	Unit price	Base price
To 1	€23.80	€476.00 / 1 Kilogramm
To 4	€22.60	€452.00 / 1 Kilogramm
From 5	€21.40	€428.00 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

L-Methionine plus Vitamin B6 for the immune system and protein synthesis

The sulphur-containing amino acid L-methionine is essential and must be obtained from the diet. Good sources are Brazil and walnuts, meat, salmon, eggs and soybeans.

Better in the P-5-P form

Vitamin B6 is present as the highly bioactive compound (pyridoxal-5-phosphate), which is 10 times more effective than regular vitamin B6. No other additives are included, so WOSCHA L-Methionin Plus is very well tolerated and suitable for vegetarians and vegans.

Functions of L-methionine

L-methionine is the "start amino acid" in the assembly of proteins and the precursor of the other sulphur-containing amino acids L-cysteine and taurine. Unlike many other amino acids, L-methionine can readily cross the blood–brain barrier.
L-methionine is also a co-factor in the production of hormones and neurotransmitters (e.g. adrenaline, serotonin), choline and histidine. Its sulphur is needed for the formation of disulphide bridges in the structural protein keratin.

Nutritional properties

- Vitamin B6 contributes to normal protein and glycogen metabolism and supports the normal function of the immune system.
- Vitamin B6 contributes to normal homocysteine metabolism and supports mental well-being.
- Vitamin B6 helps reduce tiredness and fatigue.

Nutritional declaration

Micronutrients	per daily serving 1 capsule
Vitamin B6	1.4 mg (100 %*)

*Reference intake according to Regulation (EU) No. 1169/2011

Active ingredients

Active substances*	per daily serving 1 capsule
L-methionine (vegan)	500 mg

* No reference amount specified under the Food Information Regulation

Ingredients

L-methionine, pyridoxal, hydroxypropylmethylcellulose (veg. capsule).

Recommended intake

Take 1 EMBO-CAPS® 1–2 times daily, on an empty stomach with fruit juice or water.

Note from the manufacturer

High doses of L-methionine can accelerate calcium excretion. This is risky for patients with osteoporosis. Gout sufferers should also take methionine only under medical supervision.

Storage instructions

Store in a cool, dry, dark place (do not refrigerate).
