Overview

Natural Beta Carotene Plus, 90 capsules

Product number: PM2031

Price

Quantity	Unit price	Base price
To 1	€23.90	€1,195.00 / 1 Kilogramm
To 4	€22.00	€1,100.00 / 1 Kilogramm
From 5	€21.00	€1,050.00 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

NATURA FELIX Beta Carotin Plus: The four best carotenoids to support normal vision and skin

Carotenoids, which are classified as secondary plant compounds, give plant parts and fruits such as tomatoes, carrots and aubergines their red to yellow colouring. Many dark vegetables are also rich in carotenoids, in particular our native kale.
Beta-carotene (provitamin A) represents a valuable source of vitamin A. This vitamin plays an important role for our

skin and eyes. The other carotenoids can be detected in the retina of the eye, with lutein and zeaxanthin being particularly highly concentrated at the macula (the area of sharpest vision).

The combination of the four essential carotenoids beta-carotene, lutein, lycopene and zeaxanthin with the effective antioxidant vitamin E

- contributes to normal vision (Vit. A)
- helps to maintain normal skin (Vit. A); ensures a natural supply of vitamin A
- protects eyes and skin from damage caused by sunlight (Vit. E); counteracts premature skin ageing due to UV radiation (Vit. E)

NATURA FELIX Beta Carotin Plus: highly effective carotenoids with excellent bioavailability

The NATURA FELIX beta-carotene capsules contain carotenoids that are extracted from plants in high concentration. This includes an algal concentrate from Dunaliella salina (with a beta-carotene content of 20%), a tomato extract (lycopene) as well as a Tagetes (marigold) extract (zeaxanthin, lutein). These natural carotenoids are far more effective compared with synthetic carotenoid compounds because they complement and reinforce each other.
The bioavailability of the carotenoids is increased by up to 60% by piperine from black pepper extract. The addition of vitamin E (VegeTocTM from rice oil) with its antioxidant properties supports the fight against free radicals. All cells in our body benefit from this, particularly the skin, eyes and blood vessels.
The beta-carotene preparation is sugar-free and suitable for vegans. It contains salicylic acid (derived from tomato). Natural antioxidants such as rosemary extract and vitamin C palmitate ensure that the valuable ingredients remain fresh and of high quality.

Carotenoids for maintaining normal vision

The main source of vitamin A in our body is beta-carotene (provitamin A). Vitamin A helps to maintain normal vision, supports visual acuity and helps to maintain the normal moisture balance of the eyes. Furthermore, it helps to maintain normal skin and is relevant for the cellular differentiation of epithelial cells.

Nutritional declaration

Micronutrients	per serving 1 capsule daily
Vitamin A**	2.9 µg RE** (360%*)
Vitamin E***	10 mg (83%*)

*Reference intake according to Regulation (EU) No. 1169/2011
** Information on vitamin A content refers to beta-carotene (provitamin A): 6 mg beta-carotene correspond to 1 mg RE vitamin A (retinol, RE = retinol equivalents); 12 mg of other carotenoids (lycopene, lutein, zeaxanthin) correspond to 1 mg RE. In this case referring to the contained amount of 17.25 mg. Please note: The product contains 17.25 mg, which corresponds to 2.875 mg vitamin A. This is not additionally contained.
*** Declaration of vitamin E content (α-TE = total alpha-tocopherol equivalents)

Key ingredients

Key ingredients*	per serving 1 capsule daily
Lycopene from tomatoes	0.1 mg

Zeaxanthin from the Tagetes flower	0.1 mg
Lutein from Tagetes flowers	0.1 mg
Beta-carotene from the Dunaniella alga	17.3 mg
Piperine (from black pepper extract)	5 mg

* No reference amount required according to the Food Information Regulation (LMIV)

Ingredients

Dunaliella salina, ascorbyl palmitate, hydroxypropyl methylcellulose (veg. capsule), d-alpha-tocopheryl acetate, rosemary extract, Piper nigrum, tomato extract, Calendula officinalis.

Recommended intake

1-2 EMBO-CAPS® daily, preferably with meals. To improve skin protection against UV exposure: 2 EMBO-CAPS® daily for a period of 3-4 weeks before sun exposure.

Manufacturer's notes

Not suitable for children under 3 years. Contains salicylic acid (tomato). In smokers, beta-carotene may possibly have a negative effect. The available studies are unclear. Smokers are therefore advised not to consume more than 20 mg beta-carotene per day. Pregnant and breastfeeding women should not exceed a daily intake of 9 mg beta-carotene.

Storage instructions

Store in a cool, dry and dark place (do not refrigerate).

Legal notice

The recommended daily dose must not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.
