Overview

Reumartis Antioxidant Vegan 670mg, 180 VegeCaps

Product number: EB1157

Price

Quantity	Unit price	Base price
To 1	€39.70	€283.57 / 1 Kilogramm
To 4	€37.70	€269.29 / 1 Kilogramm
From 5	€35.70	€255.00 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Reumartis - natural substances for mobile joints and healthy bones

Reumartis is a completely vegan product from EnergyBalance Switzerland, developed to support normal joint function and the wellbeing of bones, cartilage and muscles. The formula combines D-glucosamine with plant

ingredients (turmeric, cat's claw, boswellia, devil's claw, ginger, olive leaf, guggul) and the vitamins C, D and K.

Glucosamine and plant nutrients – a synergistic combination for mobile and elastic joints

D-glucosamine occurs naturally in cartilage and is a component of the connective tissue that supports joint mobility. The plant extracts contain bioactive compounds such as curcuminoids, boswellic acids, guggulsterones, gingerols and oleuropein. These have been studied for their physiological support of the musculoskeletal system and their contribution to protection against oxidative stress. The wording is deliberately neutral and complies with the rules – no medical claims about inflammation or pain are made.

Cell protection and antioxidant effect

The formula has a high ORAC value of 40,288 µmol TE / 6 capsules, which indicates the total antioxidant capacity in vitro. The antioxidant contribution protects cells and tissues from oxidative stress, a factor that can influence joint physiology.

Vitamins C, D and K – support for collagen, bones and muscles

Vitamin C (from camu camu) supports normal collagen formation, which is necessary for the proper function of bones and cartilage. Vitamins D2 and K2 help to maintain bones in a normal state. D2 also supports normal muscle function.

Who can use Reumartis™?

Recommended for adults who wish to naturally support their joint mobility and the health of the musculoskeletal system (lumbar and cervical spine, hips, knees, hands, elbows, feet) – suitable both for athletes and for people with predominantly sedentary jobs.

Why joints are more noticeable in winter or in damp conditions

A variety of people notice that their joints become stiffer or more sensitive during the cold or humid months. This does not happen without reason: fluctuations in temperature and air pressure can affect the balance of joint tissue and the perception of discomfort. In cold conditions, blood vessels constrict, leading to a temporary reduction in the supply of oxygen and nutrients to the tissue. The synovial fluid that lubricates the joints can also become more viscous and restrict mobility.

In addition, muscles tend to contract to conserve heat – this can further stiffen sensitive areas such as the hands, knees, hips or back. For this reason, it is particularly important in the cold season to keep the body active, drink enough fluids and supply it with micronutrients that support the normal function of muscles and joints.
Even in cold and damp periods, regular exercise, gentle stretching and a targeted supplement such as Reumartis™ can support joint wellbeing.

Nutritional declaration

Micronutrients	per daily portion 6 capsules
Vitamin D	5 µg (100 %*)
Vitamin K	75 µg (100 %*)

Vitamin C	60 mg (75 %*)

*Reference value according to Regulation (EU) No. 1169/2011

Active ingredients

Active substances*	per daily portion 6 capsules
GlucoVegeen	750 mg
Olive leaf	´400 mg
contains oleuropein	80 mg
Cat's claw	350 mg
Turmeric	300 mg
Ginger	250 mg
Devil's claw	250 mg
Frankincense	250 mg
Guggul	105 mg
Boron (naturally from quince)	1.5 mg
ORAC** 6.0 in µmol TE	40288 mg

* No reference intake according to FIC is specified
** The ORAC value (Oxygen Radical Absorbance Capacity) measures how well substances are able to neutralise free radicals – a capability that is crucial for protecting cells (antioxidant capacity). Values of around 365,000 µmol TE/100 g in certain supplements indicate a high antioxidant potential. Average daily requirements are often estimated at 5,000 to 7,000 units.

Ingredients

D-glucosamine sulfate; extracts of olive leaf, Uncaria tomentosa, Curcuma longa, Zingiber officinale (ginger), Harpagophytum procumbens (devil's claw), Boswellia serrata, Commiphora mukul (guggul); camu camu; boron; vitamin K2 (menaquinone); vitamin D2 (ergocalciferol). Capsule shell: plant cellulose (VegeCaps – FairTSA).

Recommended intake

6 capsules daily, take 2–3 with main meals.

Caution

Contains vitamin K. People taking anticoagulant medication should consult their doctor before using products containing vitamin K.

Storage instructions

Store in a cool, dry place protected from light (do not refrigerate).

Legal information

The recommended daily intake should not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of small children.

Product information

Application:	Bones & Joints
Dosage form:	In vegan capsules.
Micronutrients:	Vitamin C, Vitamin D, Vitamin K
Plants:	Camu Camu, Cat's Claw, Devil's claw, Ginger, Guggulu, Incense, Olive leaf, Turmeric
Product type:	Dietary supplements
