To 4	€22.30	€446.00 / 1 Kilogramm
From 5	€21.10	€422.00 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Highly concentrated cranberry extract in pure D-mannose

D-mannose occurs in fruits and certain plants. The natural monosaccharide is absorbed in the intestine and enters the bloodstream from there. Unlike disaccharides or polysaccharides, however, it **does not** affect blood sugar levels. The sugar is hardly metabolised by the liver and is excreted relatively quickly unchanged in the urine. Bacteria like to attach to mannose; in that case they are excreted with it.

New formulation completely free of additives

At the request of many customers, Natur Vital has removed the ingredients silicon dioxide and maltodextrin, which were included as a flow aid and to ensure an even powderiness. It is now absolutely pure, but no longer as uniform and clump-free as before. This in no way impairs the function and is apparently even better in its properties now. Therefore, just a note for customers who have known the product for a long time: the fact that it is no longer as absolutely uniform and powdery as before is not a reduction in quality!

Active ingredients

Active ingredients*	per daily portion 2 g
D-mannose	1.9 g
Cranberry extract 36:1	100 mg

* No reference intake specified according to Regulation (EU) No 1169/2011.

Ingredients

D-mannose, cranberry extract (10% proanthocyanidins).

Recommended intake

1 teaspoon (2 g) daily; in acute cases, if necessary, twice daily. Dissolve in 200 ml water or fruit juice and take between meals.

Note EnergyVital

We already have the new version in the jar and without silicon dioxide and maltodextrin!

Storage instructions

Store in a cool, dry, light-protected place (do not refrigerate).

Legal notice

The recommended daily intake should not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of young children.
