Overview

Sander’s acid-base test

Product number: MV3105

Price

€64.00

Prices incl. VAT plus shipping costs

Description

Determination of the acid–base daily profile according to Sander in urine

A normal acid–base balance is essential for our well-being and health. If excess acidity occurs, this can have negative consequences. This test assesses the acid–base status as a daily profile.

The test kit includes:

- 1 test protocol for your information on urine collection and dietary habits
- 1 cup for urine collection

- 5 urine tubes with stabiliser in 5 shipping vials (urine outer tubes)
- 5 labels marked Sample 1–5
- 1 shipping bag

How does the ordering process work?

After your order, the requested test kit will be sent to you with detailed instructions. You place your sample in a sample container, send it in a prepared envelope to Medivere's partner laboratory GANZIMMUN Diagnostics GmbH and receive a report with the evaluation of your profile after 5–7 days.
