Description

Magnesium citrate for energy, muscles and the nervous system

Magnesium Citrate EnergyBalance provides 105 mg elemental magnesium per capsule in the form of magnesium citrate, an organic magnesium compound. The mineral contributes to the reduction of tiredness and fatigue, to a normal energy-yielding metabolism and to the normal function of muscles, the nervous system and psychological function.

Why magnesium citrate?

Magnesium citrate is the magnesium salt of citric acid and a valued form for daily supplementation. It combines good bioavailability with a practical dosage and is suitable for targeted magnesium supply.

105 mg magnesium per capsule

Each capsule contains 105 mg elemental magnesium. The recommended daily dose of three capsules provides a total of 315 mg of magnesium and enables appropriate supplementation in everyday life.

Support for body and mind

Magnesium contributes to a normal energy-yielding metabolism, normal muscle function and normal function of the nervous system. In addition, it supports normal psychological function and helps to reduce tiredness and fatigue.

Adequate magnesium intake is particularly important during physical activity, intense daily phases and increased sweating.

Well supplemented – even when it’s hot

On hot days and after heavier sweating, a balanced mineral supply becomes more important. Magnesium Citrate EnergyBalance complements the daily diet and contributes to normal muscle function as well as to the reduction of tiredness and fatigue.

Selected raw materials and EnergyBalance quality

The magnesium citrate used is produced in Germany. The citric acid used for the citrate production is obtained by controlled fermentation with *Aspergillus niger*, without genetic engineering.

With a magnesium content of around 15.5% magnesium citrate offers a clearly defined basis for high-quality dietary supplementation.

Vegan, gluten-free and conveniently dosed

The plant-based VegeCaps contain magnesium citrate and food-grade cellulose as an excipient. The product is vegan and gluten-free and stands out for its straightforward composition.

Who is Magnesium Citrate EnergyBalance suitable for?

The preparation is suitable for adults who wish to specifically supplement their magnesium intake – for example during increased physical activity, heavier sweating, tiredness or an unbalanced diet.

Ideal for anyone who prefers a vegan, gluten-free supplement with organic magnesium citrate and transparent dosing.

Nutritional information

Micronutrients	per daily serving 3 capsules
Vitamin C	315 mg (84 %*)

*Reference intake according to Regulation (EU) No. 1169/2011
