Description

Vegetable chilli with rice

A vegan vegetable chipotle chilli with rice that impresses with robust flavours and a pleasant heat. The smoky chipotle chilli sauce provides a spicy note and gains a special depth of flavour from the addition of fine dark chocolate. The result is a full-bodied, balanced taste.

Refined with peppers, cauliflower, onions and kidney beans, this creates a warming, satisfying vegetable chilli that is ideal for camping, trekking and other outdoor adventures.

Only fresh ingredients are used in production. The dishes are gently cooked and then freeze-dried. This preserves flavour and nutrients while reducing weight and pack size to a minimum – ideal for camping, trekking and expeditions.

Preparation is very simple: add water, let stand briefly and enjoy. In less than 10 minutes a complete meal is ready. The high content of carbohydrates and proteins provides valuable energy for outdoor activities and supports recovery after a strenuous day.
