Overview

L-OptiZinc with 30 mg, 120 capsules

Product number: PM6908

Price

Quantity	Unit price	Base price
To 1	€19.30	€643.33 / 1 Kilogramm
To 4	€18.30	€610.00 / 1 Kilogramm
From 5	€17.30	€576.67 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

WOSCHA L-OptiZink: a special zinc blend with added copper.

For healthy skin and strong hair, to prevent hair loss and premature greying. Everyone wants beautiful, smooth skin and full, glossy hair, as these shape our outward appearance. A good supply of the trace elements zinc and copper is crucial for this, as they significantly promote the healthy development of skin and hair. WOSCHA L-OptiZink with copper:

- Helps maintain normal skin.
- Protects skin and hair from damage caused by sunlight.
- Promotes strong hair growth.
- Counteracts hair loss.
- May slow down the greying of hair.

Zinc and copper are also important for our immune system and play a role in energy metabolism. Zinc promotes skin regeneration and is involved in cell division and DNA synthesis. Copper is important for blood formation and the normal function of our nervous system.

L-OptiZink: very well absorbed by the body - very effective.

The special, protected zinc formula is a 1:1 complex of zinc and the amino acid methionine. Methionine can be absorbed particularly well by the body, which also benefits the associated zinc. The zinc-methionine complex combats superoxide radicals more than twice as effectively as zinc gluconate and almost twenty times more effectively than zinc oxide. The effect is even more pronounced for hydroxyl radicals. Compared with OptiZinc, L-OptiZink is about 30% more effective against aggressive oxygen species and superoxide anions. It reduces DNA damage caused by free radicals by around 40% more effectively.
Zinc-methionine promotes the formation of certain immune cells (monoblasts, promonocytes, monocytes and macrophages), which are crucial for our immune system and cellular resistance.

WOSCHA L-OptiZink has special properties:

- It also contains copper citrate, which the body can absorb well.
- Zinc and copper are present in the ideal ratio of 10 to 1.
- No additional substances are included.
- The product is suitable for vegans.

Zinc and copper: Important for healthy skin and hair

Without zinc and copper we would quickly look old. This is because a deficiency of zinc and copper can lead to pale, grey skin, dull, thin and brittle hair, hair loss and blemished skin. These two elements protect us from harmful influences and help produce energy in the body. This promotes beautiful skin.
Copper strengthens the hair and gives skin and hair their colour. This colour also protects us from UV rays. Since copper is involved in the formation of connective tissue, it contributes to a normal skin appearance. Important: Zinc and copper can interfere with each other's uptake into the cells. Too much zinc can reduce copper uptake and vice versa. Therefore it is important to take them together.

If the body has a severe zinc deficiency, it is most important to provide it with more zinc. For this we recommend a pure zinc preparation without copper, for example WOSCHA Zinc Citrate or WOSCHA Zinc e with Vitamin C.

Nutritional information

Micronutrients	per daily portion 1 capsule
Zinc	30 mg (300 %*)
Copper	320 µg (32 %*)

*Reference intake according to Regulation (EU) No. 1169/2011

Ingredients

L-zinc methionine, cellulose (filler), hydroxypropyl methylcellulose (veg. capsule), Copper(II) citrate.

Recommended intake

1 EMBO-CAPS® daily, with food.

Manufacturer's notes

Both trace elements compete with each other during transport and uptake into the cells. Too much zinc can limit copper uptake – and vice versa. Therefore it is important to take them together.

Storage instructions

Store in a cool, dry place protected from light (do not refrigerate).

Legal information

The recommended daily intake must not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of small children.

Product information

Application:	Skin & Hair, Immune system
Dosage form:	In vegan capsules.
Micronutrients:	Copper, Zinc
Quality:	Free from magnesium stearate, Gluten-free, Lactose-free, Vegan, Vegetarian
Product type:	Dietary supplements
