To 4	€35.10	€501.43 / 1 Kilogramm
From 5	€33.20	€474.29 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Dreamteam Vitamin K2 + D3

When taking dietary supplements it is extremely important to consider the interaction of the ingredients. This ensures that the beneficial properties of the substances can be utilised and processed by the body.

The combination of Vitamin D3 and K2 is therefore particularly successful. Vitamin D contributes to the normal absorption of calcium, which can increase the calcium concentration in the blood. Vitamin K2 activates proteins that

make use of calcium from the blood. Without this synthesis of calcium, it remains in the blood and can be deposited there as unwanted build-up in the vessels.

WOSCHA Vitamin K2 + D3

WOSCHA Vitamin K2 + D3 contains VitaMK7 – a patented formula with menaquinone, the most effective form of vitamin K. This is obtained in a biofermentation process from microorganisms. This manufacturing process is carried out without chemicals and is additive-free!

Since vitamins K2 and D3 are fat-soluble, the product has been supplemented with a blend of MCT oil (medium-chain triglycerides) and sunflower lecithin. This ensures excellent bioavailability.

These oils also support the absorption of valuable fatty acids.

Nutritional properties

- **Vitamin D:**
  - Vitamin D supports cell division.
  - Vitamin D contributes to the maintenance of normal muscle function, normal teeth and normal bones.
  - Vitamin D contributes to the normal function of the immune system.
  - Vitamin D contributes to the normal absorption and utilisation of calcium and phosphorus and to maintaining a normal calcium level in the blood.

Vitamin K2:

- Vitamin K contributes to normal blood clotting.
- Vitamin K contributes to the maintenance of normal bones.

Nutritional information

Micronutrients	per daily serving 1 capsule
Vitamin K	100 µg (133 %*)
Vitamin D	50 µg (1000 %*)

*Reference intake according to Regulation (EU) No. 1169/2011

Ingredients

Vitamin K2, Vitamin D, Hydroxypropylmethylcellulose (veg. capsule).

Recommended intake

1 EMBO-CAPS® once daily, with food.

Caution

If you are taking coumarin derivatives (anticoagulants such as warfarin, acenocoumarol and phenprocoumon), consult a physician before using a vitamin K2 supplement. Not suitable for children under 10 years of age.
