Description

Rich in docosahexaenoic acid for the brain and vision

Ovega3 life contains the active omega-3 ingredient DHA (docosahexaenoic acid). The capsule shell of Ovega3 life is made from modified maize starch, contains no gelatin and is entirely plant-based.

Ovega3 life – the all-rounder the body urgently needs

Ovega3 life has been formulated to help meet the requirement for active omega-3 fatty acids in adults, adolescents and children from 7 years of age. The capsules are small, soft, gelatin-free and pleasant to swallow.
In Switzerland, Germany and France only natural triglyceride oils are permitted for omega-3 oils. In the USA the artificial “EE” form is also permitted. The DHA algal oil used in Ovega3 life has the natural TG form!

Nutritional properties

- DHA contributes to the maintenance of normal brain function and of normal vision (these beneficial effects are achieved with a daily intake of 250 mg DHA).
- EPA and DHA contribute to the maintenance of normal heart function (these beneficial effects are achieved with a daily intake of 250 mg DHA + EPA).
- Replacing saturated fatty acids with mono- and/or polyunsaturated fatty acids in the diet contributes to the maintenance of a normal blood cholesterol level.
