## Overview

# NAC Plus N-Acetyl-L-Cysteine, 60 capsules

**Product number:** PM1065

### Price

| Quantity | Unit price | Base price |
|---|---|---|
| **To 1** | €22.90 | €572.50 / 1 Kilogramm |
| **To 4** | €21.80 | €545.00 / 1 Kilogramm |
| **From 5** | €20.60 | €515.00 / 1 Kilogramm |

Prices incl. VAT plus shipping costs

## Description

### NAC plus N-Acetyl-L-Cysteine for sulphur supply and cell protection

The amino acid L-cysteine is a sulphur source for our body. It is important for the formation of many proteins (e.g. creatine and insulin) and can stabilise their structure by forming sulphur bridges.

As L-cysteine easily oxidises to cystine and loses almost 85% of its valuable sulphur groups during digestion, we use the more stable N-acetyl-L-cysteine (NAC) in our food supplement. This supplies the body with almost six times

more sulphur groups than L-cysteine. NAC also has a better protein-building effect than the free amino acid. Our combination of NAC with biotin, vitamins A and C, selenium and molybdenum

- is involved in the formation of sulphur-containing compounds (L-Cystein)
- contributes to the maintenance of mucous membranes (Vitamin A, Biotin)
- contributes to the normal metabolism of sulphur-containing amino acids (Molybdenum)
- is involved in the formation of many proteins (L-Cystein)
- supports the formation of glutathione (L-Cystein)
- contributes to the normal function of the immune system (Vit. A and C, Selenium)
- helps protect cells from oxidative stress (Vit. C, Selenium)
- has a positive effect on the psyche (Biotin, Vit. C)

## Other ingredients in WOSCHA NAC

**Biotin** and **Vitamin A** are very important for the respiratory tract because they support the maintenance of normal mucous membranes.

**Biotin** and **Vitamin C** are involved in energy metabolism and contribute to the normal function of our nervous system. They have a mood-balancing effect, as they promote normal psychological function.

**Vitamin C** and **Selenium** are important for the normal function of our immune system and protect our cells from harmful free radicals.

**Molybdenum** supports the normal metabolism of sulphur-containing amino acids such as L-cysteine.

## Nutritional information

| Micronutrients | per daily portion 1 capsule |
|---|---|
| Vitamin A | 120 µg (15 %*) |
| Vitamin C | 40 mg (50 %*) |
| Biotin | 10 mg (20 %*) |
| Selenium | 25 µg (45 %*) |
| Molybdenum | 50 µg (100 %*) |

*Reference intake according to Regulation (EU) No. 1169/2011

## Active ingredients

| Active substances* | per daily portion 1 capsule |
|---|---|
| N-acetylcysteine | 100 mg |

* No reference amount specified according to the Food Information Regulation.

### Ingredients

Amino acid, hydroxypropylmethylcellulose (veg. capsule), magnesium ascorbate, sodium molybdate dihydrate, L-selenomethionine, vitamin A acetate, biotin.

**Recommended intake**

1 EMBO-CAPS® daily, on an empty stomach with fruit juice or water.

**Notes from EnergyVital**

L-cysteine is a sulphur-containing amino acid. This may cause an unpleasant odour to be released when opening the freshness seal. This is not a negative, but a positive sign of quality.

**Storage instructions**

Store in a cool, dry place, protected from light (do not refrigerate).

**Legal notice**

The recommended daily intake should not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of small children.

## Product information

| | |
|---|---|
| **Application:** | Immune system, Cell protection |
| **Dosage form:** | In vegan capsules. |
| **Micronutrients:** | Biotin, Molybdenum, Selenium, Vitamin A, Vitamin C |
| **Quality:** | Free from magnesium stearate, Gluten-free, Lactose-free, Vegan |
| **Product type:** | Dietary supplements |
