Description

Combined strength of valuable roots

The essence of roots is an integral part of many teas, healthy recipes, drinks and spices. This complex combines 9 valuable roots into a rich composition. Ginger, especially appreciated during the colder months, is combined with flavonoid-rich licorice. Ginseng contributes ginsenosides to the blend; Chinese angelica brings essential oils, bitter substances and tannins. Other root extracts, such as taiga root and maca tuber, provide a wealth of secondary plant compounds and amino acids. As a result, Root Complex is the optimal choice for anyone who wants to benefit from the positive properties of nine valuable roots combined in one capsule.
