Description

Valuable secondary plant compounds from the maritime pine

Pycnogenol® is a patented and standardised extract from the outer bark of the maritime pine (Pinus pinaster), a fir species that grows on the southwest coast of France. Traditionally, firs are also called pine trees. The extract contains a variety of polyphenols, such as oligomeric proanthocyanidins (OPC), and organic acids such as ferulic acid, cinnamic acid and caffeic acid. Pycnogenol® has been used for some time. It has been used as a supplement for approximately 40 years. Today, with over 300 scientific publications, it is considered one of the most intensively studied nutrients worldwide.

The extract exerts a wide range of biological effects that are due to a multiple mechanism of action. Pycnogenol® has strong antioxidant activity and can help protect various body cells from free radicals. It also promotes blood circulation and the flexibility of blood vessels by positively influencing the formation of NO (nitric oxide) from the amino acid L-arginine in the walls of blood vessels. NO plays a role in many regulatory mechanisms, including in the vascular wall. Pycnogenol® supports the stability of connective tissue in the walls of veins and capillaries, which is why it can be helpful for cosmetically troubling veins. Moreover, it promotes microcirculation, including in the brain.

Pycnogenol® can also be a valuable supplement for athletes when combined with the right diet and appropriate training, as it possesses antioxidant properties.

Active ingredients

Active substances*	per daily portion (1 capsule)
Maritime pine bark extract (Pycnogenol®)	50 mg

* No reference intake according to the Food Information Regulation (LMIV) specified
Pycnogenol® is a registered trade mark of Horphag Research Ltd. This product may be protected by one or more US patents and other international patents.

Ingredients

Rice starch (Oryza sativa), vegetable capsule (pullulan, from fermented cassava starch), French maritime pine bark extract (Pinus pinaster).

Recommended intake

Take 1–2 capsules per day with water at a meal.

Storage instructions

Store in a cool, dry place, protected from light (do not refrigerate).

Legal information

Do not exceed the recommended daily intake. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of the reach of young children.
