Description

Multimineral complex with natural iodine for the thyroid

Thyreo Assist combines kelp (iodine-containing brown seaweed) and the amino acid L-tyrosine into a high-quality mineral complex. Tyrosine is the starting substance for the biosynthesis of DOPA, dopamine, catecholamines, melanin, thyroxine and tyramine. Thyreo Assist naturally supports the formation of thyroid hormones as well as normal thyroid function.

Nutritional properties

- Iodine contributes to normal cognitive function and to the normal functioning of the nervous system.
