Overview

Spirulina Premium Iron Plus, 300 pellets

Product number: BL0115

Price

Quantity	Unit price	Base price
To 1	€29.50	€245.83 / 1 Kilogramm
To 3	€28.00	€233.33 / 1 Kilogramm
From 4	€26.50	€220.83 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Spirulina Premium Eisen Plus - The biological iron alternative

Spirulina Premium EISEN Plus consists of 100% gently dried, blue-green, spiral-shaped Spirulina platensis microalgae. These thrive in strongly alkaline, mineral-rich mountain spring water on a protected sun farm under subtropical climatic conditions. In addition to an increased iron content, they also offer an impressive variety of essential nutrients.

During the cultivation of Spirulina, the nutrient-rich spring water is additionally enriched with the trace element iron, which the microalgae fully metabolise. Iron is thus present in an organically bound form and therefore with optimal bioavailability.
One tablet therefore contains 1 mg of organically bound iron; this is considerably better tolerated than iron that has been chemically added (e.g. in the form of iron gluconate). The latter is used in pharmacy-standard products and causes stomach or intestinal problems in many people.

Spirulina Premium EISEN Plus is a natural food supplement to provide the essential trace element iron. Iron contributes to the normal formation of red blood cells and haemoglobin, to normal oxygen transport in the body, to the reduction of tiredness and fatigue and thus to a normal energy-yielding metabolism, to the normal functioning of the immune system, as well as to cognitive function. In addition, it has a role in cell division.

Spirulina Premium EISEN Plus...
provides all the vital nutrients of the microalga Spirulina platensis.
additionally has an almost standardised iron content, which simplifies dosage.
contains the trace element iron organically bound in biologically utilizable, natural molecular complexes.

Nutritional properties

- Iron contributes to normal cognitive function and to the reduction of tiredness and fatigue
- Iron contributes to a normal energy-yielding metabolism and to normal oxygen transport in the body
- Iron contributes to the normal formation of red blood cells and haemoglobin
- Iron contributes to the normal functioning of the immune system and has a role in cell division

Nutritional declaration

Micronutrients	per daily serving 5 tablets
Iron	5.04 mg (36%*)

*Reference intake according to Regulation (EU) No 1169/2011

Ingredients

Spirulina platensis microalgae powder.

Recommended intake

Consume up to 5 tablets daily with plenty of fluid.

Storage instructions

Store in a cool, dry place away from light (do not refrigerate).

Legal notice

The recommended daily intake must not be exceeded. Food supplements are not a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of small children.
