Description

The practical pill box – for on the go and at home

The podo medi pill box offers plenty of storage space for tablets or vitamin capsules. In the large separate compartments the pills are kept dry and hygienic. The handy pill box takes up hardly any space and fits in almost any handbag.
The size is 11 cm × 7.2 cm and the height is 4 cm. The compact box is large enough to accommodate a number of capsules and tablets, yet still handy enough to fit comfortably in a jacket pocket and be taken with you.
The pill box makes it easier for you to take your dietary supplements correctly. The box folds into 3 layers and features 8 individual compartments of different sizes. The separate chambers can be opened easily and are large enough for several capsules, tablets or softgels. Thanks to the transparent flip lids of the individual compartments you can immediately see the contents. This allows you to divide everything neatly and keeps your pills and capsules clearly organised.

The food-grade PP material is very robust and lightweight. At the same time the case can be opened and closed easily with one hand.
The pill box is also an ideal companion for travel and when you're on the move.
