This high-quality blend is based on the Chinese "Gui Pi Tang" formula. It is also known as the "student formula". Looking at the ingredients of this blend, the name becomes clear. Wild jujube (Ziziphus), poria, Chinese dates and longan are intended to provide support during phases that demand concentration. In traditional Chinese materia medica, the formula is therefore used to focus and calm the mind. Due to the variety of high-quality plant extracts contained, this blend offers a wealth of different nutrients. An ideal companion through, for example, exam periods, times of heavy workload or for an alert mind in everyday life.

Contributing ingredients
