From 5	€25.90	€364.79 / 1 Kilogramm

Prices incl. VAT plus shipping costs

Description

Ascorbyl palmitate – the fat-soluble vitamin C

Ascorbyl palmitate is a special form of vitamin C, which is formed from ascorbic acid and palmitic acid. Normally vitamin C is only water-soluble. However, ascorbyl palmitate has the special feature of being both water- and fat-soluble. This has the advantage that the vitamin C can reach areas of the cell that it would not normally access with water solubility alone. Since vitamin C helps to protect the cell from oxidative stress, this property is particularly useful.

Ascorbyl palmitate can also cross the blood–brain barrier and exert a positive effect there through its nutritive properties.

Compared with conventional vitamin C, this special form can also be stored in the body.
Ascorbyl palmitate is buffered and is therefore very well tolerated.

Nutritional information

Micronutrients	per daily serving 1 capsule
Vitamin C	250 mg (313 %*)

*Reference value according to Regulation (EU) No 1169/2011

Ingredients

Ascorbyl palmitate, Hydroxypropylmethylcellulose (veg. capsule).
